WORSE THAN MORMONISM

Says Cardinal Gibbons of Di-
vorces.

DISREGARD IS GROWING

Marriage is no Longer a Sac-
red Thing.

This Noted Catholic Divine Writes
an Excellent Article for the July
Delineator.

The reckless facility with which
divorce is procured in this country
is an evil scarcely less deplorable
than Mormonism—indeed it is in
some respects more dangerous than
the latter, for divorces has the
sanction of the civil law, which
Mormonism consists in a simultane-
ous of divorce a virtual toleration of
Mormonism in a modified for-
m. Mormonism consists in a simultane-
ous polygamy, while the law of di-
vorce practically leads to successive
polygamy.

Each state has on statute books
a list of causes—or, rather, pre-
texts—which are recognized as suf-
ficient grounds for divorce. There
are in all 22 or more causes, most
of them of a trifling character, and
in some states, as in Illinois and
Maine, the power of granting a di-
vorce is left to the discretion of the
judge.

It is plainly manifest that the
cancer of divorce is rapidly spread-
ing over the community and poison-
ing the fountains of the nation.
Unless the evil is checked by some
speedy and heroic remedy, the exis-
tence of family life is imperiled.
How can we call ourselves a
Christian people if we violate a
fundamental law of Christianity?
And if the sanctity and indissolu-
bility of marriage does not consti-
tute a cardinal principle of the
Christian religion, I am at a loss
to know what does.

Picture to yourself the fearful
wrecks caused by this rock of scan-
dal, and the number of families that
are east drift on the ocean of life.
Great stress is justly laid by
moralists on the observance of the
Sabbath. But what a mockery is
the external repose of the Chris-
tian Sabbath to homes from which
domestic peace is banished, where
the mother's heart is broken and
the father's spirit crushed, and
where the children cannot cling to
one of their parents without ex-
hibiting the jealousy or hatred of the
other. And these melancholy scenes
are followed by the final act of the
tragedy when the family ties are
dissolved, and hearts that had
savored eternal love and union are
separated to meet no more.

The facility with which marriage
is annulled is most injurious to the
morals of individuals, of the family
and of society.

It leads to ill-assorted and hasty
marriages, because persons are less
circumspect in making a compact
which may afterward be dissolved
almost at will.

It stimulates a discontented and
unprincipled husband or wife to
lawlessness, quarrels and even adul-
tery well knowing that the very
crime will afford a pretext and
legal grounds for separation.

It engenders between husband
and wife fierce litigation about the
custody of their off-spring.

It deprives the children of the
protecting arm of a father or the
gentle care of a mother, and too
frequently consigns them to the
cold charity of the world; for the
married couple who are wanting in
conjugal love for one another are
too often destitute also of parental
affection. In a word it brings into
the household a blight and desola-
tion which neither wealth nor lux-
ury can repair.

This social plague calls for a
radical cure, and the remedy can
be found only in the abolition of
our mischievous legislation regard-
ing divorce and in an honest appli-
cation of the teachings of the Gos-
pel.

If persons contemplating mar-
riage were persuaded that once
united they were legally debarred
from entering into second wedlock
they would be more choice of a
life partner, and would be more
patient afterward in bearing the
yoke and in tolerating each other's
infirmities.—Cardinal Gibbons in
July Delineator.

Carr's Trade Letter

Weekly review of Grain Trade
Conditions which are shaping prices
prepared expressly for The Mirror
by the Farmer Commission House
of H. H. Carr & Company, 96
Board of Trade, Chicago, Illinois.

Grain traders close this week in
a rather peculiar situation. Tele-
graph operators from San Francisco
to New York are threatening to go
on a general strike if the telegraph
companies do not meet certain de-
mands. Next week may open with
Chicago almost entirely cut off
from wire service or the difficulty
may be settled and trade allowed to
go on in a natural way. And
from possible disturbance of this
kind, we can see elements of
strength in the wheat situation.

It has rained for three days on
the early harvest in Southern Kan-
sas and Oklahoma. Considerable
damage is reported. Harvest is
about to begin in Missouri and
wet weather is predicted there also.
For the past 48 hours Europe has
taken about one million bushels on
this side. Continental markets are
again strong, because of unfavor-
able weather over Germany. A
very large decrease in wheat on
ocean passage is looked for Mon-
day and this may increase the
anxiety of foreign buyers to secure
supplies from this side. Over con-
siderable part of North Dakota dis-
patches indicate that the spring
crop outlook is not so good as two
weeks ago, but worms and drought
injuring wheat on the high lands.
There is no doubt that the green
bug which did such great damage to
the winter wheat crop exists in
great numbers in the spring wheat
states but the damage is not yet
known. The Modern Miller of St.
Louis finds decided injury of late
to Illinois wheat fields from bugs.
Believe the market is working into
a very strong position.

The finest of weather has pre-
vailed over the big corn states for
a week but hundreds of reports by
wire and mail indicate that the
lateness of the crop, its weedy con-
dition and poor color have been
very little improved. Corn raisers
in Kansas fear that extreme hot
weather will overtake the crop be-
fore it is sufficiently advanced.
Advices at this time from all quar-
ters indicate a short crop. July and
August are the great corn months
and conditions may easily improve.
Chicago sold for shipment and ex-
port 1,200,000 thousand bu. corn the
past two days. It is probable that
Europe will keep the cash situation
strong all summer and unless there
be decided improvements in the
crop outlook, future a will
be bought for further advance.

For two weeks past oats raisers
of Illinois and surrounding states
have tried to make themselves be-
lieve that the green bugs which
were so thick were harmless. Now
it appears that the crop is turning
yellow in many counties and in
some places has been plowed un-
der. Hundreds of reports by wire
claim that the outlook is much
worse than 10 days ago. The cash
and shipping situation is strong
as country supplies are very light.
Kansas City reports that Texas
will draw on new oats in the
Southwest. We made it as plain as
possible that oats were in a strong
position when September price was
around 36 and May under 40 cents.
Prices are now up several cents
from these points and likely to go
several cents higher. We will gladly
furnish on application. Market Re-
ports to those who are interested
in following prices if the name of
this paper is mentioned.

What a Barber Is

A friend of Oliver Herford, the ar-
tist and author, enjoys nothing more
than to elicit a witticism from him by
means of a series of odd questions.
He said one day:

"Oliver, have you ever talked with a
concocted German barber, one of those
individuals whose head is perfectly
round, like an orange, and whose hair
stands up straight, like hog's bris-
tles?"

"I have," said Oliver.

"Then tell me what is your defini-
tion of such a concocted German bar-
ber?"

"A concocted German barber of the
type mentioned," replied Herford sol-
emnly, "is a human sausage endowed
with unlimited power of speech!"—

Danger in Electric Light

If your dwelling is electrically light-
ed never place wood, clothes or other
inflammable material against the
wires, meters, or switches; never use
an electric wire as a clothesline, and
see to it that your dwelling is kept
free from rats, as these pests often
gnaw the insulation from the wires.
The amount of loss from "electric
fires" in the United States in one year
according to the Saturday Evening
Post, is \$15,000,000.

DO THEY LAST? IS THE QUESTION

That is Asked Over and
Over Again by Our
Citizens.

Regarding the Wonderful Cures
That Are Being Daily Perform-
ed by the Boy Phenomenon
Now at the Majestic
Hotel.

Hundreds Who Have Witnessed the
Startling Transformations Admit
the Cures Are Accomplished
But Wonder if They Will
Stay Cured.

Interesting and Positive Statements
From People Who Were Cured
Six Weeks to Six Years Ago,
Who Say They Are Still
Well.

While He Will Be in Marion Some
Weeks Longer the Present Low
Fees Will Positively End
Next Week, So Those Who
Wish Treatment at Pres-
ent Reduced Prices
Must Call At Once.

The Boy Phenomenon has been in
Marion nearly six weeks, daily proving
and demonstrating the great power he
possesses by which he has cured hun-
dreds of cases that had defied all other
forms of treatment. But there are
still a great many who doubt the
permanency of these cures. They
admit the cures are accomplished,
as in many instances they were eye
witnesses to their magical transfor-
mations, but they are afraid they are
not lasting. The doctor has in
his possession over 1,400 sworn tes-
timonials from patients who have
been cured of chronic diseases during
the past ten years, and all of whom,
with only 27 exceptions have remained
well ever since. Besides the testi-
monials that have already been pub-
lished in our daily papers, he has
scores of others from among our best
citizens, which will continue to be
published from day to day, all at-
testing the wonderful benefits derived
from the hands of the Boy Phenom-
enon, thus proving beyond any possi-
bility of doubt that his cures are
as permanent as they are marvelous.

Although the names and addresses
of many cured patients have been
published in the last five weeks for
the sole purpose of affording the skep-
tical an opportunity to investigate
their truth, talk with them, see with
their own eyes and hear the story
from their own lips; still there are
some who yet doubt their perman-
ency.

It is in order to convince this class
that magnetism does cure more quick-
ly, positively and permanently than
by any other method, that he has de-
parted from his usual custom of in-
creasing prices after the first two
weeks, or when fifty cures have
been made, and instead thereof the
reduced prices have been continued
one more week, but next week ends
the low fees, as after next week his
regular prices will be charged.

To further convince those who
fear the cures are not of a lasting
nature, a dozen names of people who
have been cured the past six years
were selected at random from a pile
of over 1,400, and written to, inquir-
ing if they were still cured. Space
forbids the publication of these re-
plies, as some of the answers are sev-
eral pages in length, every line teem-
ing with heartfelt expressions of
praise and gratitude to their beloved
benefactor, who transformed them
from the slough of despondency, mis-
ery and suffering, to a life of health
and happiness. But the names and

and other out door sports contribute not a little to the gen-
eral health and happiness of the community at large. But
like all good things they are attended with certain evils that
if not cured must be endured. Here are some cures for some
of them.

addresses of a few will be given, to-
gether with their disease and the
year cured, which will enable those
who doubt that such marvelous
cures can last, to write the people
themselves and hear from their own
lips the story of their wonderful res-
toration. It is hoped when they are
written to that stamps will be in-
closed for their reply.

Miss Lino M. Philo, of 329 Glen
street, Glen's Falls, N. Y. Both
limbs crippled and paralyzed for
years, used two crutches, one of the
first cases the Boy Phenomenon ever
treated in public, says in a letter
dated June 29: "I have never used
the crutches since you took them
away from me 10 years ago, and
never expect to, as I have no trouble
since. Sincerely yours, Lino M. Philo.

Little Frankie Trisch, 106 Charles
street, Akron, Ohio, a terrible cri-
ple from infantile paralysis, atrophy
of the nerves and rheumatism, mak-
ing her such a cripple that she had
to be carried. Such was her pitiful
condition for five years before her
father carried her in his arms to the
opera house and before an audience
of 2,000 people, she was healed by the
Boy Phenomenon and restored to her
anxious parents a happy child.

This may seem too wonderful to
believe, but the facts are capable of
proof. Write and ask her. In a
letter dated June 15, her father says:
"Frankie is well and growing like a
leaf; hasn't a pain or used her
crutches since you cured her five
years ago. A. A. Trisch."

Dr. S. A. Grice, oldest physician
of Ft. Wayne, Ind., was totally deaf
25 years; cured five years ago and
still remains so.

Dr. H. R. Kretzinger, most promi-
nent physician of Ashabula, O., at
68 Center street, totally deaf 20 years,
cured 4 years ago, and is still cured.

Captain Robert B. Short, chief of
police and judge of Evansville, Ind.,
and member of governor's staff, was
cured of rheumatism 6 years ago
and never had a pain since.

Captain Fred Dasher, captain of

police, Ft. Wayne, Ind., cured of rheu-
matic paralysis 6 years ago.

Whole columns of such testimony,
with hundreds of names, could be
published from people cured in other
cities to prove the cures are lasting,
but people prefer to talk with those
cured and see for themselves, there-
fore the daily papers will continue
to publish statements of Marion citi-
zens who have been cured, so they
can be seen by those who wish to
investigate.

Those who wish to be cured at the
present reduced prices must make ap-
pointments at once, as after next
week, his prices for cures will be in-
creased. Office hours at the Majestic
hotel daily from 10 a. m. to 5 p. m.,
and 7 to 8 evenings.
